Dear Daryl,

Blackstone Chambers/2 Garden Court Project : 2007-2009

I am writing to thank you all at Fanshawes for the very thorough and supportive job which you did for Blackstone Chambers as our Quantity Surveyors in the course of our recent building project. There were grave difficulties occasioned at least in part by the many changes of personnel in the contractors' team which made the project rather complicated. Fanshawes provided a detailed analysis of costs at all times and were able to ensure that the costs were kept under control throughout the project.

Obtaining and agreeing a final account with the contractor was a particularly difficult operation; without Fanshawes very detailed work during that period I am certain that Blackstone Chambers would have had a far from satisfactory conclusion to the project. As it was, we appreciated the sterling work which Fanshawes did for us.

I would be happy to provide an oral reference if needed to direct any prospective clients to me.

Yours sincerely,

JULIA HORNOR
Chambers Director
