Dear Darryl

Office Fit Out, 15 Appold Street, London EC2

Following a successful project I would like to thank you for your valued input into our fit out project.

You were a strong member of the team providing solid dependable advice from start to finish, delivering all the targets we set you including agreeing a final account under contract sum despite there not being any contingency.

We have been impressed by your professionalism and ability to financially steer the project to an excellent conclusion on completion of the works. If we require a quantity surveyor in the future you would be our first choice and would be pleased to give a recommendation to any of your future clients.

Yours sincerely

Jon Wheeler
Head of Data & IT Services
